

Queue Merchandizing Panel

FITS EXISTING BARRIERS

This is the only queue merchandizing system that does not require the purchase of new stanchions; it works with any existing belt barrier. The panel's design allows for fast, easy installation without the need to lift heavy panels above the posts. Multiple panels can be connected to create a run of any size. The panel will accept a wide range of slatwall accessories and the post tops can be fitted with our Display Bowl for increased capacity.

Available with Display Bowls

Wide range of accessories

◀ Multiple panels can be connected to make a run of any size
