

ConePro 500

TRAFFIC CONE MOUNT FOR MEDIUM SPANS

ConePro, is a light, portable retracting belt unit that fits onto most types of traffic cones and is more effective at restricting access than cones alone. ConePro 500 features either a 10' or 12' heavy duty nylon that belt won't fray or break even in the toughest conditions. A belt lock prevents accidental belt release. Units are available in orange or yellow and can be supplied with reflective panels and belts for high visibility during darkness.

Available with
reflective panels

Using ConePro

1
Fit ConePro to the
traffic cone

2
Extend the belt to the
length required

3
Clip the belt onto the next ConePro
