

## Elegance Safety

### TRADITIONAL STYLE SAFETY BARRIER

The Elegance Safety is designed to restrict access to work areas while maintaining the traditional style of the rope stanchion. This is a robust stanchion manufactured from heavy gauge steel with a cast iron base that offers excellent durability. The posts are powder coated in high visibility yellow and feature replaceable anti scuff base covers. The post can be unscrewed from the base and stored flat when not in use. We recommend the stanchion's high visibility yellow finish be matched with our yellow or black polypropylene rope. Hard wearing and water proof this rope is ideal for work environments.

Forged rope loop

High visibility yellow finish

Heavy gauge steel construction

Cast iron base

Replaceable base cover

Full coverage floor protector
