

QueuePro Twin

ADA COMPLIANT

The QueuePro Twin features twin belts providing maximum control of the customer queue. The lower belt restricts pedestrians from ducking under the belt, helps keep children in line and provides guidance for the visually impaired using a cane. The bottom belt is 27" inches from the ground making this stanchion ADA (Americans with Disabilities Act) compliant. The QueuePro Twin features a two piece post construction which allows the lower belt mechanism to be easily replaced in the field avoiding the cost of returning the stanchion to the manufacturer for repairs.

Twin belts for
ADA compliance

Easy replacement of
lower belt cassette

Universal Belt End connects
to all major brands

Brake for slow, safe belt
retraction

Low profile cast iron base

Full coverage rubber
floor protector
