

## RollerPro 250

### ELEGANCE AND EASY MOVEMENT

The RollerPro 250 is the first belt barrier offering the convenience of a roller base at an affordable price. Additionally, with an 11' belt, 45% fewer barriers are required than with the industry standard belt. Moving large numbers of portable belt barriers can be a challenge. Storage carts are expensive and loading can be difficult but the RollerPro 250 is easily moved by tilting the barrier onto its discrete 4.5" roller and simply pushing using the post head.

Break for slow, safe belt retraction

Belt lock to prevent accidental belt release

Universal belt end connects to all major brands

Full coverage rubber floor protector

Discrete 4.5" roller for moving stability

Roller base for fast, easy moving
